

What is the Global CHE Network?

We are an association of people and organizations using the strategy of Community Health Evangelism (CHE) to serve impoverished communities in urban and rural settings around the world. We are networked together for mutual support to share useful ideas and best practices, encourage each other, coordinate efforts, and optimize the use of limited resources. Member organizations work collaboratively to empower their workers for greater impact, strengthening and expanding each other's ministries. CHE trained workers are serving with more than 400 organizations in 105 countries.

Investing with the Global CHE Network

Your gift to the Global CHE network is an investment in people who proclaim Christ in word and deed, trusting Him to transform beliefs, behaviors, and communities. Your gift is not an investment in a project such as a well or a school, but an investment in people who work with communities for comprehensive and long-term solutions to poverty and disease. Your contributions result in people coming to Christ, and whole communities being lifted out of cycles of poverty and disease.

GLOBAL CHE NETWORK

The purpose of CHE work is not just breaking poverty or planting churches, though both are accomplished. CHE workers trust God to transform beliefs and change behavior so that his peace, justice, compassion, and righteousness are reflected in the lives and communities they serve. Our purpose is to recognize Jesus as Lord over all creation, and to bring glory to God by ministries that reflect the depth and breadth of His Kingdom plan.

Healthy today because of CHE

The Global CHE Network is an affiliate of the Alliance for Transformational Ministry (ATM).

Contributions should be designated for the Global CHE Network and mailed to:

GLOBAL CHE NETWORK

Bringing Good News to the POOR through Community Health Evangelism (CHE)

GLOBAL CHE NETWORK

What is CHE?

Community Health Evangelism (CHE) is a Christ-centered educational program that equips communities to identify issues and mobilize resources to achieve positive, sustainable change. Lives and communities are transformed as people come to Christ and work together to address local needs.

CHE seamlessly integrates community health and development with evangelism, discipleship, and church planting. People become followers of Jesus, and whole communities are lifted out of cycles of poverty and disease.

Our Mission

The mission of the Global CHE Network is to advance CHE ministries worldwide. We achieve this through three basic activities:

1. Training and Leadership Development:

Collaborating organizations and network coordinators conduct CHE training events at different times and places around the world. These seminars, conferences, and internships equip workers to implement Community Health Evangelism ministries in targeted communities.

2. Alliances and Networking:

The Global CHE Network brings together mission agencies, churches, and faith based organizations to share resources and to plan strategically for the greatest possible impact. This is achieved through

alliance and working group meetings, conferences, and the Global CHE Network website.

3. Research and Curriculum Development:

Through its network of hundreds of organizations, the Global CHE Network identifies best practices and develops materials for use by collaborating organizations around the world. CHE's vast curriculum includes more than 3000 lesson plans on every aspect of wholistic community-based development ministry. These materials cover such topics as health education, agriculture and animal husbandry, sanitation, evangelism, and discipleship.

Our Vision

The Global CHE Network envisions every nation permeated with the hope and transforming power of the Gospel.
